

VISUAL IDENTITY GUIDELINES

INTRODUCTION

BIAC BRAND

At Biac we're as passionate about our brand as we are about helping our clients raise more.

Our high standards of client service should be mirrored in the way we deport ourselves through our visual identity and all its aspects.

These brand guidelines set the visual standards for the Biac brand image outlining usage convention for our logos, color palette, typography and infographics; setting out clear rules on the deployment of these components in our brand and marketing collateral.

By following the principles outlined in these guidelines, we can maintain cohesion and consistency across all our communications ensuring that we present Biac at the best.

Our culture and core values are an essential part of our business:

LOGO VERSIONS

LOGO AND STRAPLINE GUIDELINES

Three approved versions of the logo have been created Solo , with and without the full company name.

Read our usage guidance to understand when each logo should be used.

LOGO SOLO

FULL COLOR LOGO

The positive version of the logo is always used on clear white or lighter color tinted backgrounds to maintain legibility.

INVERSE

The positive version of the logo is always used on dark color tinted backgrounds to maintain legibility.

BLACK MONO LOGO

For use on facsimile and other black and white publications.

WHITE MONO LOGO

When used on dark and colored backgrounds, the logo should be all white to maintain legibility. This will provide a striking contrast allowing the logo to be clearly legible.

LOGO USE

LOGO PLACEMENT

The preferred placement for the logo is in the upper segment of communications. Anywhere in the outlined areas shown here is acceptable, although corners are preferred. This way, the logo becomes a grounding element that appears consistently on all pieces.

If the top zone is unsuitable, it is also acceptable to place the logo anywhere in the horizontal segment at the bottom within the piece. Again, corners are preferred, but the logo can be centred for more formal communications.

OUR COLOR PALETTE

COLOR PALETTE

COLOR USAGE

OUR COLOR PALETTE

Beyond our logo, color is the most recognizable aspect of our brand identity. Colors were selected that reflect our bold, diverse community and given names that reflect their inspiration. Using color appropriately is one of the easiest ways to make sure our materials reflect a cohesive Biac image or visual story.

NOTE

When using color builds, always use the color values listed here. They were adjusted for the best reproduction in print and on screen and do not match Pantone® Color Bridge breakdowns.

COLOR PALETTE

COLOR USAGE

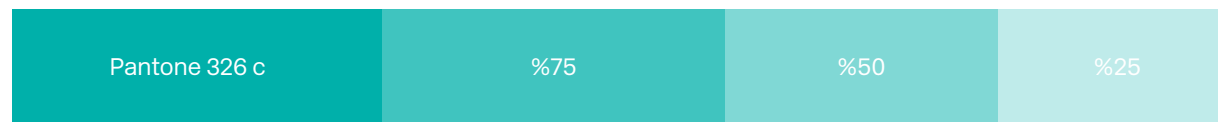

Our color palette consists of two primary colors (Dark turquoise Pantone 326c and Metallic Silver 877c), complemented by a set of 5 supporting colors.

These seven colors all have their own purposes and main areas of usage, which will be further outlined in the coming pages.

Color Breakdowns

The color breakdowns are shown in each instance – CMYK, RGB values and HEX web safe colors. The RGB and HEX color values shown are for on screen use only, therefore colors may differ from the CMYK references.

TYPOGRAPHY

TYPOGRAPHY

PRIMARY - PRINT AND ONSCREEN

Typography is the arrangement of letters and words on any given space.

However, it is also an excellent tool to strengthen our brand identity. If used correctly, every piece of written text has the potential of being a manifestation of the Biac brand. In this section, you will learn how we express ourselves through type.

Primary

Arabic Font : DIN Next LT W23 is the brand font that we will use across a wide range of materials, especially all kinds of branding materials. It is vital to follow the guidelines of this section, since mixing too many weights, or too many sizes of one font in the same material can appear messy and isn't necessary to create hierarchy among the text elements.

To the right, you see an overview of the main weights we recommend using (bold, regular and light).

- Bold and light are used together in headlines.
- Regular is mainly used for text of length.

Noa purchased a license for DIN Next LT W23.
You need to install the font on your computer.

الملكية الفكرية هي إشارة لإبداعات العقل
البشري المختلفة و حماية هذا المخزون
الإبداعي يسهم في تحرير قدر أكبر من القدرات
و البصمات الفريدة التي تصنع التقدم أو تواكبه
لذلك نحن نضيء الأفكار بدفع عجلة الابتكار
للإمام حتى نمح الإبداع مساحته .

التمويل والاستثمار
Funding & Investment

نعزز الإمكانيات Enhancing Potential

عمليات التمويل والاستثمار الذكية تحرص على
الإدارة الصحيحة على المحافظ الاستثمارية
لترعى استدامة الموارد و تحفز أرقام الربح لذلك
نحن نعزز الإمكانيات من أجل الإسهام في دعم
الاقتصاد الوطني عبر التوجيه المثالي للموارد
من أجل أن نبكر أوجه الاستثمار.

GRAPHIC ELEMENTS
IMAGERY

IMAGERY

GRAPHIC DEVICE - MAIN THEME

This concept shows creation, process of improvement and sustainability.

Through having particles as the main element. Everything is created with particles.

To innovate and create an incubator environment, particles are used to evolve to the final and sustainable form. Every particle translates the people, energy, knowledge and innovations used to create incubation and acceleration environment.
